VEGETATIO

the international journal of plant ecology

Contents Volume 118 Nos. 1-2 June 1995

Theme: Classification and inventory of the world's wetlands
Guest editors: C.M. Finlayson and A.G. van der Valk

Editorial 1–2

Classification and inventory of wetlands: A global overview
D.A. Scott & T.A. Jones 3–16

The current status of European wetland inventories and classifications
J.M.R. Hughes 17–28

Classification of boreal mires in Finland and Scandinavia: A review
P. Pakarinen 29–38

Inventory and classification of wetlands in India
B. Gopal & M. Sah 39–48

Ecological significance and classification of Chinese wetlands
J. Lu 49–56

Developing wetland inventories in southern Africa: A review
A.R.D. Taylor, G.W. Howard & G.W. Begg 57–79

A review of wetland inventory and classification in Australia
R.L. Pressey & P. Adam 81–101

A geomorphic approach to global classification for inland wetlands
C.A. Semeniuk & V. Semeniuk 103–124

An evaluation of the first inventory of South American wetlands
L.G. Naranjo 125–129

Canadian wetlands: Environmental gradients and classification
S.C. Zoltai & D.H. Vitt 131–137

US Fish and Wildlife Service 1979 wetland classification: A review
L.M. Cowardin & F.C. Golet 139–152

The US Fish and Wildlife Service's National Wetlands Inventory Project
B.O. Wilen & M.K. Bates 153–169

EMAP-Wetlands: A sampling design with global application
R.P. Novitzki 171–184

Wetland classification and inventory: A summary
C.M. Finlayson & A.G. van der Valk 185–192
